

### **Company Profile:**

- **Alghanim Equipment Company** is a part of Alghanim group of companies; one of the leading business families in Kuwait.
- Our company is one of the leading distributors in Kuwait for heavy construction, industrial equipment and spare parts.
- Through our experience we have established a wide customer network, and gained a reputation for supplying high quality products and excellent after sales services to our customers.
- Our financial strength is allowing us to prosper in a very competitive business environment.

### **About Us:**

Our company is located in the Shuwaikh Industrial area. Our team of engineers are highly experienced and are able to deliver the best support starting from initial guidance and choosing the right equipment to after sales product support and training.

Our business is a fully fledged dealer for a group of leading manufacturers of machinery, spare parts & the repair of:

- Construction Equipment.
- Industrial Equipment & Workshop Tools.
- Material Handling Equipment.
- Storage & Racking systems.
- Power Generation.
- Cleaning Equipment.

In addition, our mobile workshops are fully equipped and ready for on the road emergency repairs at our customers' sites. Our skilled technicians are factory trained to perform all kinds of repairs.

### **Mission:**

- Commitment to achieve customer satisfaction through continued improvement in support
- To deliver the best available light & heavy equipment, with the latest technology, in the Construction & Industrial sectors, with efficient after sale service & support.
- Maintain excellent reputation & expand our maintenance projects through high standards of supplies & quality maintenance services.

## **Our Departments:**

### **Government Sales Department**

The Government Sales Department has been established to provide technical support to the Ministries & government departments through sales, installation, operation & user training, on modern equipment, machines & special tools. We participate in government projects through tenders and complete the projects leaving an exemplary reference for the organization we work with as well as for future contacts. We are dedicated to excellence & to provide assistance whenever necessary until the customer is completely satisfied with its project's operation.

We are an accredited government contractor and participate in many turn-key projects which we perform professionally.

We provide warranty for all equipment & machines installed and/or supplied by us. Our warranty periods range from 12 months to 24 months, during which our engineering staff will be available for supervision & on the spot rectification during the operations.

List of Our Present Customers includes:

- Kuwait Oil Company (KOC)
- Kuwait National Petroleum Company (KNPC)
- Petrochemical Industries Company (PIC)
- Ministry of Electricity & Water (MEW)
- Ministry of Public Works (MPW)
- Ministry of Defence (MOD)
- Ministry of Interior (MOI)
- Ministry of Information
- Kuwait Municipality
- National Guards
- Public Authority for Applied Education & Training (PAAET)
- Public Authority for Agriculture Affairs and Fish Resources (PAAF)
- Kuwait Port Authority (KPA)
- Naval Base (MOD)
- Environment Public Authority (EPA)

### **Retail Sales Department**

The Retail Sales Department was established to serve the private sector & individuals to meet their demands.

Our area of expertise varies from cleaning equipment to the heavy earth moving equipment, material handling equipment and many other machines to serve a wide range of customer requirements.

Our team of highly qualified sales engineers & sales representatives are ready to discuss your requirements any time from the time of selection till the delivery, test & operation.

Our standard policy is to continually upgrade our sales team through regular training coordinated by our suppliers to ensure both optimum performance and our clients' satisfaction.

### **Maintenance & Service Department**

The Maintenance Department has been established with the aim of providing approved international standards & dependable after sales service to our valued customers. Consisting of a highly qualified staff of engineers & technicians, we are capable to deliver the services at your site as well as at our premises. The workshop is located in Mina Abdullah area and occupies an area of 5000 m<sup>2</sup>. Our workshop facilities are equipped with all special tools, equipment, precision measuring equipment and facilities to perform maintenance, repair, modifications & overhauling all types of heavy equipment & machinery.

We are specialized in (and not limited to) Hydraulic Mobile cranes, Overhead cranes, Portal cranes, Mixers & Dumpers, Loaders, Telescopic cranes, Mobile Diesel Driven Air Compressors, Construction Power Tools, Plate Compactors, Vibrating Rollers, Water Pumps, Road Repair Equipment, Generators, Forklifts & Cleaning Equipment.

We are supported by a warehouse carrying all required spare parts. We also maintain a technical library which contains all related publications and updated amendments issued by the manufacturers.

We value our customers & intend to achieve our goal by providing our customers the best possible support through the maintenance of the equipment, repairs, as well as on hand training on installation and purchase of new equipment.

Our Maintenance Department Provides:

- Fast & efficient service
- Proper & timely response to your enquiries
- Fast dedicated site visit teams

## **Spare Parts Department**

The Spare Parts Department has been established to serve our valued customers with the sole objective of providing after sale support for our equipment and to ensure availability of the genuine spare parts to maintain your costly machines.

We purchase the spare parts directly from the equipment manufacturers in order to cut the prices as well as ensure the procurement of original standard parts.

Our aim is to establish the highest availability standards with 90% parts on shelf. On the other hand, our close links with the manufacturers, continuous exchange of information, and excellent communications ensures minimum lead time. This ensures putting the valuable machines of our customers back on the road within the minimum possible time.

Our aim is to earn confidence of our valuable customers by ensuring maximum availability, providing speedy service, and saving our customers' precious time & money.

### **Safety Measures:**

Safety, quality & performance are the three main commitments Alghanim Equipment Company offers to its valued customers. Quality and safety conscious management has established a quality management system in accordance with international standards. Our policy is to introduce only those products that meet all the national & international safety standards and requirements. The employees are made aware of safety requirements at work to insure a safe and secure environment during all our operations at all times. The maintenance of customer equipment we deal in, involves high risk in operation if the safety standards are compromised. Therefore, our highly qualified engineers and supervisors are continuously required to maintain very high safety standards, implement the safety program and keep the employees aware of the latest safety requirements.

Our performance of safety comes through a program that encompasses:

- Committed management to the safety program.
- Written quality management system procedures.
- Goals and objectives for our safety program.
- Safe environments for work.
- Employees training program to maintain up-to date knowledge of equipment and safety requirements.
- Safety orientations, dress code and safety discussions.
- Adherence to the local safety regulations.
